1933

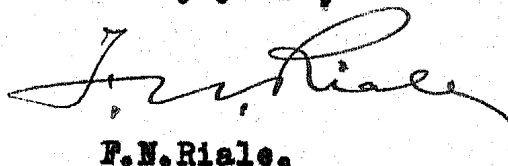

My dear Professor Barth:

I have just finished your excellent message, THE RESURRECTION OF THE DEAD, which I have read with the greatest profit and deepest interest. Surely your heavenly intuitional insight has flashed forth at times, so of the rarest passages of the fuller "truth as it is in Christ Jesus".

It has been largely along this line that I have found the master passion of my own heart. The little announcement enclosed will indicate about the way it sees the Spirit of our Father, has been leading my mind and heart. It is needless to say it would give me only the greatest pleasure to send you one or both of the books, with the best wishes of the writer---and "without money and without price", of course. The world seems so dead-ready and dead-ripe for this richer fuller and more living and life-giving message of the Word that it may be actually made flesh and live among us. Surely Carlyle was right when he said what the world most needs today is for souls who "know God otherwise than by hear-say".

Thanking you for what you have so well done in this your last book, believe me ever,

Very sincerely yours,

F.N. Riale.
