

Cooper and very beautiful on the mountain
in the pine country. Another s.p. also is
very Coopers- and looked somewhat like
also very like. In New York State, and
Pennsylvania it is also seen in Virginia and
western Appalachians - also some specimens
in the Blue Ridge, where it is possibly the
found in the mountains. It is common in
the mountains of - as far as the National Park
then goes to the top of the mountain. That is all I have to
say about it.
