Dear Professor Barth,

I have pleasure, under separate cover, in sending you a copy of a volume devoted to your teaching which we have just published. I think you will be interested in reading it. There is a growing interest, quite evident in this country in theological circles, in the point of view you have been expounding and it is our hope that this book, which is, I believe, the first lengthy treatment in English, may help to make it better understood.

Yours sincerely,

Hugh H. Martin
