

Tokyo, Japan,  
December 19, 1934.

Dear Sir:-

We are taking the liberty of sending to you a copy of an article, entitled "The Fundamental meaning of the Christ-Way", to which we should like to call your attention. The author is Rev. S. Ojima, pastor of one of the leading Presbyterian Churches in the city of Tokyo, a Christian for 43 years and a minister for 44 years. He has long been a deep student of comparative religions and has carried on painstaking research in Bible study.

The article, referred to above, was published in the Religious section of the Yomiuri Newspaper, the most widely read newspaper in Tokyo, it having a circulation of 800,000 copies. There has been discussion of this article in its columns and we think it may be interesting to you to read a Japanese Christian's interpretation of the Christian Gospel.

You are under no obligations of any kind, in receiving this article from us, but, if you have any criticisms or observations to make regarding it, we should be honored and pleased to receive them. It will give us pleasure to translate them into Japanese and publish them in the religious section of our newspaper, where they will be read by a wide circle of Japanese people.

Hoping to hear from you,

Sincerely yours,

Editor

The Religious Section
