Dear Dr. Barth,

My Chairman was so pleased with your letter that he has replied to you himself and sent off the suggested agreements.

I should like, on my part, to thank you very much for your kindness and to say how proud I am that we shall be able to publish your Gifford Lectures. Do please call upon me for any help that you feel I may give.

I am having the "British Weekly" article translated by Mr. Strathearn McNab, and we are hoping to make a great feature of it in the paper.

Yours very sincerely,

Samuel Gifford
